

# Achieving Natural Esthetics with Implants

Biologic Considerations & Technological Evolution | Principles of Tissue Preservation & Reconstruction  
Minimizing Risk & Managing Complications

## ABOUT THE PROGRAM

Dr. Sclar's presentation will clarify important anatomical, biological and technological concepts as they relate to achieving natural esthetics with dental implant restorations. Furthermore, he will review key patient evaluation and esthetic risk assessment parameters as well as essential clinician prerequisites for minimizing risks and successfully managing patients who desire dental implant replacements in areas of high esthetic concern. The scientific basis, rationale and principles of hard and soft tissue implant site preservation and site development techniques will also be demonstrated via detailed clinical case presentations that include long term follow up. Lastly, Dr. Sclar will demonstrate the management of various esthetic complications.

## LEARNING OBJECTIVES

- Understand important anatomic, biologic and technological concepts related to achieving esthetics in dental implant therapy.
- Discuss key patient evaluation and risk assessment parameters for patients seeking dental implant replacements in areas of high esthetic concern.

- Understand the importance that proper selection and sequencing of site preservation, site development and prosthetic procedures have on achieving natural esthetics with single and multiple adjacent implant restorations.

## PROGRAM AGENDA

7:30 a.m. - 8:30 a.m.	Registration/ Continental Breakfast
8:30 a.m. - 12:00 p.m.	Program- Dr. Sclar
12:00 p.m. - 2:00 p.m.	Lunch

## LOCATION

Fox Hollow Restaurant & Catering  
7725 Jericho Turnpike  
Woodbury, NY 11797

## CE CREDIT

4 CE credits will be awarded for attendance.

## TUITION

Free

## INFORMATION/REGISTRATION

For more information or to register, please call LICOMS at 516-333-5900 or fax the completed registration form to 516-333-5868.

## ABOUT THE SPEAKER

Anthony G. Sclar  
DMD

Dr. Anthony G. Sclar is considered a leader around the world in reconstructive and esthetic dental implant surgery. In private practice at South Florida OMS since 1989, he is the founder of Integrated Seminars and Director of Education at the Sclar Center for Empowered Dental Implant Learning where he conducts limited attendance topic specific courses for his colleagues featuring innovative training methodologies. In addition to publishing numerous journal articles and textbook chapters pertaining to dental implant surgery, Dr. Sclar authored a hallmark, multilanguage textbook entitled; *Soft Tissue and Esthetic Considerations in Implant Therapy* (Quintessence 2003).

A dedicated professional, Dr. Sclar serves as an editor for the dental implant surgery section of the *Journal of Oral and Maxillofacial Surgery* and is the Director of Clinical Research and Post Graduate Dental Implant Surgery in the department of Oral and Maxillofacial Surgery at Nova Southeastern University School of Dentistry.
